<u>Attendees:</u>   All the class

<u>Items Discussed and Decisions Made:</u>

Quik- Ventory- Developed application that helps the user keep track of inventory using either a barcode scanner or manual input. Talk about signing in and creating account. Ran into a lot of problem getting more information from scanning each item.

Virtual Zoo Guide – Website provides users to view facts about all of the animals that can be found at Hattiesburg zoo. While the zoo does have its own website, they will differ by providing more facts. This is a website. Search functionality works. Almost all the tests were passed.

Eco-cost - Help manage finances. Easy to plan budgets. Manage stocks/ investments. Has a login and register page. Provides a lot of security features. Hash passwords implemented. Encryption keys used with each new session.

Dev-Ops – Developed an application to keep track of tasks for users. Has chat feature to communicate with other members of a team. Showed login features and did a live demo.

<u>Action Items:</u>
- Get documents uploaded to our GITHUB.

Note: For our purposes, <u>each student</u> is to post the meeting minutes to their personal repository.
